GAMEZONE POWER AND DATA REQUIREMENTS:

For support, contact Alex on 1300 00 5483

1. Power and data position

- Recommended power/data height: 2300mm from the floor

2. Roof Clearance

- Ensure 200mm minimum clearance between the top of the power/data points to the roof

3. Gamezone Area

- Ensure there is room to install the gamezone:
 - 1100mm minimum clearance below
 - 600mm minimum width

4. Terminal Power & Data

- Install second set of power and data points (if not available) behind the cabinet where the Sportspick terminal and printer will be located.

NOTE: Only applicable when Sportspick Gamezone Plus is required. (Terminal version)
